

Official Legacy Racing Engine Sealer Agreement

1. Must be an official business. Business license may be requested for verification.
2. If one of the engines with your tag is found illegal, your privileges will be revoked for 2 years. If found illegal after privileges reinstated you will be banned from participating in the future.
3. You must follow class guidelines listed in the Official Legacy Rulebook. Each class will have specific guidelines listed under their classes.
4. We encourage you to use the "Cup" style tags.
5. Please provide us with a picture of your official tag.
6. Each company will be required to send a representative to check tags for at least one event per calendar year. We will work out a rotating calendar so you are not required to be at every event.
7. If an engine is protested, we will require two separate companies perform the tear down and inspection. The company whose tag is being protested may have a representative present during tear down and re-assembly.
8. \$100 yearly fee to be an engine sealer. Money will be used to help put reassemble engines that have been protested and found legal.
